These data have been compiled to assist the Resource Assessment Project Team with development and evaluation of Conservation Action Sites. The data have been compiled from a variety of sources, including NRCS ranch maps (USGS 7.5 minute quads), the Pima County Land Information System, and have been supplemented with data from members of the Resource Assessment Project Team.

The Arizona Department of Water Resources provided funding for this project through Water Protection Fund Grant No. 97-041.WPF. The views and findings represented are the Altar Valley Conservation Alliance's and the Pima Natural Resources Conservation District's and do not necessarily represent those of the Water Protection Fund Commission nor the Arizona Department of Water Resources.
